Bringing inclusion to life in Bilbao!

The ALL IN EDUCATION project brings schools, teachers, and communities together to improve teaching methods, boost students' life skills, and ensure every learner, no matter their background or ability, has the chance to thrive.

At All in Education, we're excited to keep moving forward on our mission!

Know more about Centro San Viator!

Centro San Viator contributes to the personal and professional growth of individuals by promoting innovative, advanced management and serving as a reference in:

- Inclusive and holistic education.
- Socioeconomic development of Enkarterri and its business network.
- Training and entrepreneurship in emerging sectors.
- International experiences at every stage of education.
- Corporate social responsibility.
- Innovative methodological, pedagogical, and cooperative learning programs.

Latest news

Life Skill Journey – Bilbao 2025

The ALL IN EDUCATION team gathered in Bilbao and Sopuerta for a two-day journey filled with workshops, school visits, and collaborative activities centered on emotional well-being and inclusive teaching. Participants explored learning styles, experiential relaxation techniques, and strategies to strengthen resilience and cooperation in the classroom.

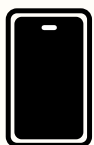

Workshops on Emotional Well-Being

During the visit, educators took part in hands-on sessions focused on managing emotions, stress, and positivity in learning environments. Creative activities, relaxation techniques, and team challenges helped reinforce how empathy and self-regulation can transform the educational experience for teachers and learners alike.

Spotlight on Inclusion at Centro San Viator

A key moment of the event was the visit to Centro San Viator, where participants gained valuable insights into working with students with special educational needs (SEN). The experience highlighted practical approaches and reinforced the project's commitment to building inclusive learning pathways for all students.
